Quality for Oil Field Services Co. Ltd was established in 2008 in Republic of Yemen. It provides comprehensive & wide range of services for the Yemeni Market and has been servicing the Oil & Gas Industry, Power, Government, Manufacturing, Service and the Private Industry since the founding date. Quality is known for its high quality and technical competence in all its fields of services. Its scope of work includes Providing all the Basic & Assistance Services to the work of Oil & Gas Exploration and Production, Representing the International Companies, Providing technical and legal Consultation services, Providing Training Services, Supplying local and foreign Manpower.

Vision: To be the leading provider and best one by offering a complete and comprehensive range of all the Basic & Assistance Services in Oil & Gas, Training & Education Services, Technical and legal Consultation Services, Certification & Auditing.

Mission: We will conduct our business activities in a manner that is consistent with the best international practice providing quality, timely and responsive solution, and ensuring value for money to all our customers through a professional workforce. Employees will be respected, recognized and fairly rewarded.

Quality: Our Quality Management System has been developed and maintained to meet the international standard ISO 9001:2008. We are an ISO 9001:2008 Certified Company. Employee participation to implement the international standard in quality is highly encouraged at all levels.
HEALTH, SAFETY AND ENVIRONMENT (HSE):

Health, Safety and the Environment (HSE) is becoming an integral part of every organization. HSE services help organizations to lead to well-managed health, safety, and environmental operations.

Ensuring the health and safety of an organization’s stakeholders, compliance to legal and regulatory requirements, environment-friendly operations, a positive public image, better insurance premiums, and less operational downtime are only some of the benefits brought by HSE.

We have a strong HSE policy and HSE Management System in place. This has been developed and managed to meet the international HSE standards OHSAS 18001:2007, 14001:2004, Risk Assessment, HAZOP, and ISO.
